The Pantry x

https://www.thepantrycatering.co.uk

Over a decade later and we've continued to broaden the business and now supply some of the country's most recognisable companies with various services such as corporate buffets, staff lunches and even cater for their major event days where we have fed up to 20,000 people!

We have also expanded into schools where we provide daily meals for a number of schools across the borough.

Fresh, Healthy Food for Growing Minds

Just like you, we're parents, and there's nothing more important to us than seeing the children we feed get served the nutritious food they deserve.

Simple

All of the meals we serve your children have been kept as simple as possible, using the same ingredients you'd find at home.

Fresh

We hand make all of our lunches that morning

Nutritious

Every one of our recipes has been carefully selected to provide your child with the nutrition their growing bodies need.

Quality

We insist on the highest quality ingredients, from fresh fruit and veg to red tractor approved, grade A meat.
