# Teachers2Parents App

Botwell House School is a cashless school. You must download the Teachers2Parents App in order pay for school trips/workshops, maintenance fund etc. To download the Teachers2Parents App to your mobile phone or tablet go to Play Store or App Store.

Once installed it will ask you for your mobile phone number. This must be the number that you requested to be priority 1 on the school system.

This will generate a code on the same screen, enter this code and you will then be live on the system and be able to pay for trips/workshops and other school expenses.

Now that you are set up you will only need your mobile number to access the app.

Please contact the school office if you are having trouble accessing the app.

Kind regards
